Response to restriction requirement is acknowledged.

Upon review it was found that the sequence listing filed 11/20/01 is not complete. There are sequences remaining in specification that are subject to sequence listing rules, but which are not included in the sequence listing. See p. 27, Table, third compound from the bottom, and p. 14, line 28.

37 CFR 1.821 requires that:

Where the description or claims of a patent application discuss a sequence that is set forth in the "Sequence Listing" in accordance with paragraph (c) of this section, reference must be made to the sequence by use of the sequence identifier, preceded by "SEQ ID NO: " in the text of the description or claims, even if the sequence is also embedded in the text of the description or claims of the patent application.

See MPEP 2422.

Applicant is requested to provide SEQ ID Nos for all peptide sequences in specification which are subject to sequence rules and to provide a revised substitute computer readable and paper copy of Sequence listing.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
